TAKING CALOMEL IS DANGEROUS

Calomel is a powerful chemical made from mercury—people should be careful about its use. The only sure way to avoid the danger of calomel is to take no calomel.

Dodson's Liver Tonic, a vegetable liquid of pleasant taste, more than takes its place. Where calomel shakes you up and shocks your liver and often makes you really sick, Dodson's Liver Tonic, mild but effective, builds up and strengthens. It "liven up the liver." You feel fine after taking it.

Dodson's may be taken without any restriction of diet or habits. You can give it to your children with fine results.

Get a large bottle for 50 cents at Laurens Drug Co. and if it doesn't do all that you think it ought—if it doesn't make bilious spells mere trifles—if it doesn't "liven up your liver," your money will be waiting for you and be returned with a smile.
